

How to Grow Into Your Calling

Glance at the Past

- Make a list of your jobs and roles from the past. Make sure to include unpaid roles like volunteer positions, care-taker or mother.
- Make a list of skills you acquired in these jobs and roles.
- Pray and Reflect: Do you see any overlap or common threads in the skills you've attained over the years? Ask God to show you His hand.

Peer Into the Future

- Make a list of dreams you had as a little girl. Go ahead and include the "silly" ones. Even though we might never become a pop star, singing into a hairbrush is still part of who we are!
- Make a list of dreams or purposes that God has given you since.
- Pray and Reflect: Does God want to resurrect any of those dreams? Ask God to have the courage to dream His dreams for your future.

Look Around

- Make a list of some of the skills you've attained over the years that would help you achieve one of your dreams.

- With one of your dreams as a heading, make a list of small actions steps it would require to achieve that dream.
- Pray and Reflect: Use one of the skills you have in place to take an action step toward your dream this week. Thank God that He's prepared you in the past to take a present step toward your future!
- REPEAT until you've grown into your calling!
